THE BLAIRMORE ENTERPRISE, THURSDAY, MAY 18, 1933.

\$2.00 PER ANNUM

### J. W. McDONALD, K.C. IS BLAIRMORE'S SOLICITOR

At the regular meeting of the Blairmore town council on Monday night, the by-law to appoint a town solicitor was given its third and final reading and was passed, appointing J. W. McDonald, K.C., of Macleod, as solicitor for the town, making the third official to be imparted since the coming into power of the present "labor" administration.

Three spare chairs in the council chamber were occupied by O. M. Olsen, Harvey Murphy and Charl Shaw. A large number of ratepayers were forced to stand.

The solicitor's retaining fee was set at \$250 per annum, to be paid quarterly.

Harvey Murphy asked the council to endorse a resolution passed by the workers of the Crows' Nest Pass, protesting agaist the inhuman conditions in Alberta prisons; also against section 87 of the Criminal Code of Canada. By resolution, the council endorsed same, although they did not know anything about any such conditions.

The town's secretary was bonded for the sum of \$5,000.

A communication was received from the relief commission in Edmonton, which refused to authorize the sum of \$483.15 expended for clothing for the unemployed. This account was for the month of January. It was pointed out by the department that proper authority had not been received for this expenditure, and further pointed out that all relief for clothing had to be worked out at the rate of 30c per hour. Should this apply for the months of February March and April, it will mean a loss of nearly \$2000, which will greatly effect the town's estimates for the year.

### MINE WORKERS GIVEN AFFILIATION WARNING

The United Mine Workers of America, through its district president at Drumheller, Robert Livett, has issued an ultimatum to its membership that affiliations with any dual organization will be followed by suspension of those members from the U.M.W. of A.

The communication, sent out to all locals, calls for support of local and district union officials by loyal members of the organization. President Livett remarks in the communication that in the past a certain amount of leniency has been shown toward union members who have sought to disrupt its ranks, but that the time has come for disciplinary action.

### STICKS TO LUBITSCH

Charlie Ruggles bearded comedian makes his third appearance in an Ernst Lubitsch production in company with Miriam Hopkins, Kay Francis, Herbert Marshall and Edward Everett Horton in "Trouble in Paradise," Lubitsch film from the play by Laszlo Aladar, showing for the balance of the week at the Orpheum. He has previously appeared with Maurice Chevalier in "The Smiling Lieutenant" and "Our Hour With You," both produced under guidance of the German director.

### BIG EMOTIONAL ROLES

Emotional drama, tense and deep founded, is the outstanding characteristic of "A Bill of Divorce," special holiday attraction at the Orpheum for May 24th and 25th.

The theatre-wise will recall that the stage inspiration of the picture, the long-lived play by Clemence Dane, made Katherine Cornell famous as a star of the stage.

In the Radio-Pictures' film adaptation, starring honors are taken by John Barrymore, supported by Billie Burke, David Manners and Katharine Hepburn, who portrays Miss Cornell's stage role.

### LOCAL PUPILS SUCCESSFUL AT MUSICAL FESTIVAL

Candidates from this district were quite successful at the Lethbridge district musical festival, held at Lethbridge on Monday, Tuesday and Wednesday of this week. Among those finding awards during the first two days were: G. Dow, of Frank, first in primary piano with 86 marks; Fred Antrobus, of Coleman, second in girls' solos with 83 marks; J. Petras, of Coleman, first in intermediate violin with 88 marks; Lorna Hales, of Blairmore, third in junior violin with 84 marks; Roy Upton, of Blairmore, first in open violin; Jean Cruickshank, of Hillcrest, second in intermediate violin with 81 marks, and George Kerr, of Blairmore, third in the same class with 82; Winona Taylor, of Coleman, second in soprano solo.

### FORMER BELLEVUEITE DIES IN WALES

Mr. W. L. Evans, of the Blairmore Exchange, received the sad intelligence yesterday of the death of his twin brother, Robert, which occurred at Wrexham, Wales, on Tuesday, May the 2nd, at the age of fifty years.

Mr. Evans was at one time proprietor of a livery business in Bellevue, leaving there about ten years ago for the Old Country, where he and his family have since resided. He is survived by his wife and two children. Another brother, Jarrett, died in the Okanagan four years ago.

### BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"Quotable Poems, volumes 1 and 2," Thomas Curtis Clark; "The Adventures of Joseph Andrews," Henry Fielding; "Swansea-Dan," Arthur Mason; "Walking Shadows," Alfred Noyes; "Triple Fugue," Osbert Sitwell.

The library hours are Tuesday, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year.

The first message of the Pope to the world through the medium of talking pictures, showing the high lights of Vatican City, scenes of the Basilica, the new Vatican railway, the governing offices, the Pope's office and incidental departments. You see and hear the famous bells of Vatican Square, you see the Pope for the first time meeting the actual ruling head of a government when he greets Mussolini and Victor Emmanuel, Monday, Tuesday and Wednesday next, at Coles.

### THE VERY LATEST JOKE

The latest in the real joke line is the decision of local Reds to boycott the big carnival being sponsored at Coleman next week by the Citizens' League.

It's a recognized fact that every knock is a boot, and the bigger the boycott effort on the part of the Reds, the bigger the success assured for the carnival.

The Reds will some day wake up and find that it's not so easy to break down institutions worth while.

### UNEMPLOYED BECOME GOLD HUNTERS

Equipped with well-constructed "grizzles" for washing gold, some 70 unemployed of Edmonton will enter the gold-hunting business along the Saskatchewan river within the next week or two. The equipment has been constructed under supervision by the men themselves. One outfit will require 50 men to operate, and there are other units requiring six men each. The new equipment is much advanced over the old-fashioned "grizzles."

## COLE'S — THE MODERN THEATRE — BELLEVUE

Thursday, Friday, Saturday  
May 18th, 19th and 20th

The Greatest Cast of International Stars ever assembled in one picture, including:

CEDRIC HARDWICK - JOAN BARRY - DONALD CALTHROP CONRAD VEIDT - ESTHER RALSTON - FRANK VOSPER and others

You'll meet them all on the "Rome Express" — 12 Famous Stars.

## ROME EXPRESS

### ADDED ATTRACTIONS

Comedy—"Union Wages" with Louise Fazenda and Sally Blane

British Miniature and Fox News

Matine Saturday at 1.30 p.m.  
Admission 25c and 10c, tax included

2 Shows Saturday night at 7.30 - 9.30

## Special for Bargain Nights

Mon., Tues., May 22, 23 - Adm. 25c and 10c, tax inc.

More exciting than a six-ring circus

## "The BIG CAGE"

with CLYDE BEATTY, sensational daredevil and his marvelous animal act, Anita Page, Raymond Hatton, Andy Devine, Mickey Rooney.

SPECIAL ADDED ATTRACTION

"THE VOICE OF THE VATICAN"

The first message of the Pope to the world through the medium of talking pictures.

WILL ROGERS and IRENE RICH in

## 'Down to Earth'

FRIDAY, SATURDAY, MAY 26, 27

DELORES DEL RIO and JOEL McCREA in

## "BIRD OF PARADISE"

COMING—"Kid from Spain" - "Cavalcade" - "Rasputin"

### SPECIAL EXCURSION

### FARES TO EAST

Winnipeg, Man., May 16—So successful was the experiment carried out by the two railways at Easter time when special bargain coach fares were offered from the prairies to the Pacific coast, that it has been decided to offer a similar series of vacation fares from Port Arthur and west to all points east of Cochrane and Sudbury.

The travel dates for this new bargain in travel are from May 24 to June 8 and tickets will be good for 30 days from date of sale. Special fares have been quoted by both railways, approximately one cent a mile in each direction. The tickets will also be good in tourist sleepers, on payment of a small additional amount covering berth.

More exciting than a six-ring circus, the hair-raising exploits of Clyde Beatty are brought to Cole's theatre screen for Monday and Tuesday next, in thrilling close-up by Universal's film achievement, "The Big Cage." The picture is more desperately daring than even the death defying Beatty's act in the sawdust arena, for cameras practically place the collective heads of the audience in the lions' mouths—and the tigers', too—by bringing all the action of "The Big Cage" right into the customers' laps.

## CHAPTER X.—Continued.

That probably means they went southwest," Alan remarked, but his short laugh was not pleasant. "You be natural and easy-like, but it won't get many liars in our time. I want to know who this party of yours is, where they came from, how they know this way about in it. I want to know that pack of other pats got into Trevor MacMillan's storage shed. I want to know who the man who killed Jimmy Montgomery there on the 'Midnight Sun.' Now get busy.

He clicked the safety on his automatic and brought his elbow up against his side.

Chink Woolley trembled, his knees shook, he wailed. He guessed that this man must be the Baker fellow, sergeant terrible, whom Melli Andre always mentioned, low and broken. The hypnotic eyes seemed to be boring into him. That heavy automatic was tilted to make his next lie the last. And if he turned king's evidence, he might escape the noose.

It was a strange story that Alan had in the heart of Many Waters.

Eighteen months ago, he was a whale in Beaumont, a wolf who had eaten the half-breed. Andre would have picked up later, had "run a buck" under Jensen's instigation, but were overpowered by the captain and rest of the crew. Flung ashore with the skipper's supine good wishes at bleak Demarcation Point on the Arctic coast, they made their way across the Romanzoos to the new pioneer fields in the Kayukuk headwaters. They came too late to get worthwhile claims; and they discovered, too, that "hawking" in the perpetually-frozen subsoil was ever harder work than whaling.

It was Jensen, brooding over their predicament, who conceived the idea that it was easier to find gold which already had been found than to thaw a hole thirty feet down to black sand and bedrock and then maybe get nothing. It was Jensen who allayed their fears and dangled the golden lure in front of their eyes till their mouths watered and they were ready for anything he planned.

Andre the half-breed was a find. He fitted into the party like a key into

a lock. They were crassly ignorant of the country; they were tyros when it came to travelling, hiding, living in the bush. But Andre the breed was bush-wise as a weasel and water-wise as a muskrat mink, and he knew the whole north country from Roos Welcome to Point Barrow as he knew the palm of his hand.

It was Andre who had brought the party into this strange country, by back rivers and untraversed trails, avoiding all sight of men, so that they seemed to have dropped from the sky. It was Andre who suggested the place of attack on the "Midnight Sun," and the Thal-Azzah as a place to hide in after the swoop and robbery. And it was "breed" Andre's sharp-speaking Savage that drilled Jimmy Montgomery through the heart.

Alan Baker breathed a little harshly. He ordered, "Describe that 'breed.' And he added, "So there will be no mistake when I meet him."

Woolley described his meti confidentially. Alan nodded curtly. After a few moments' silence, he spoke again: "Now about Trevor MacMillan. How did that pack of fura get into the trading post?"

"Jensen put it there."

Woolley did not know all the details, but from hints Jensen had dropped, he was able to piece the story together pretty well.

Several years ago at Herschell Island, that gathering point for whalers, Indians, traders, Eskimos and Arctic explorers, Jensen had run afoul of Dave MacMillan. He had come ashore from a whaler, hungry for drink and hungry for woman's company after eight months of following the herds. He had found the drink, and in a whisky haze had started to make rough love to fifteen-year-old Joyce MacMillan.

Dave MacMillan fell upon him. For years now Jensen had been nursing his injury chin remade by the hand of MacMillan's hard fist had caught him; and his ears still rang with the derivative jeer of those who had dog-whipped down across the swells and over the shingle to the whaler.

He had never forgotten the MacMillan gift nor the incident of that smoky October day. The incident had smoldered in his veins ever since; and when his party passed the trading post, it had flared up. It was a fierce, putting, that comparatively worthless hale of fury in the shed of the man who had dog-whipped him. He had counted on the trader discovering them, wondering about them, innocently calling the attention of the police to them, and getting into hot water when he failed to explain how they got there.

The revelation of Dave MacMillan's complete innocence was no surprise to Alan but merely a proof that his and Joyce's instinctive belief had been correct. Now he could know that in buying out of service he had saved the reputation and possibly the life of Joyce's father. Under Haskell's tyranny he could never have vindicated Dave. In his own way he had planned, and had fought through to this partial triumph.

Writing down the essential points of this confession, he forced Woolley to make his mark on the paper, with himself and Bill as witnesses. He made a second copy for Bill, in case something happened to Bill or him. Then he demanded of Woolley:

"You say those other men went hunting. When are you expecting them back?"

Woolley did not know. He seemed strangely hesitant. Fidgeting uneasily he would glance up at Alan and then away, as though he had something to tell but was afraid to tell it.

Alan saw his agitation. He demanded: "What're you so abecking over? Cooking up some news?"

"You think I'll kill him if I tell you the truth? Where did you get him? You may have git back dare on the Aloska in time to save da girl. I'm not gonna tell you. Open up. What about her? What do you mean—In time to save her? I'll not kill you if you tell."

Woolley stammered: "Dey went down de Aloska to git her. It's Jensen's idea. He's aimin' to take her along on de escape and keep her for himself. He's all burnin' about dat girl."

His shaky voice trailed off. He shrank back in quivering dread from the expression that had come into Baker's eyes.

For a little while, a few moments only, Alan stared unseeingly out across the waters of the great blue lake. To wait here, until the bandits came back? Not that: they'd be three days and nights on the return trip. Joyce would be helpless all

that time, in the power of the man who was "all burnin' about dat girl." They had left only thirty-odd hours ago. He stood a chance of beating them to the trading post.

Whiling on Bill he ordered:

"You stay here. You attend to this end of it. Buzzard and I will attend to the other. We'll go after them in the plane. There's a chance we can get to the trading post before they do. You'll have a rifle extra. They're intending to come back here after the loot. If anything happens to Buzzard and me, you'll be left, you'll have a chance at them. It'll be all up to you."

He turned on his heel and ran down to the canon and skirted out to the waiting plane.

"Get back to the Aloska, Buzzard! To Joyce's home!" He pleaded huskily. "For G—d's sake make it straight and fast!"

No one appeared at the doorway of the trading store. No one, with hair shimmering in the sun, came running down the path to greet them.

Their shouts at the landing brought no answer from a girl's lips or from old Pence. In some measure prepared, Alan called Joyce's name as he strode into the trading hall. He called but once; he looked but once into her room.

A spinner first weight out his lumps of clay—1½ lb. goes to a 5-inch pot—and piles them up beside his wheel. The wheel which is horizontal, stands in a shallow sink, half-full of warm water. The spinner seizes a lump of clay, puts it in the water, slips it down on the wheel and covers it with his hands. At the same time he works the wheel with his foot. In a few seconds up rises a dummy pot. A few seconds more, moulded by the spinner's hands, it has risen to its full height, complete with rim. The whole business savor of magic. Promptly the spinner slips a piece of string beneath the finished pot and whips it from the wheel. It gives in his hand as though made of rubber. It takes twenty seconds to make a five-inch pot.

Buzzard came running to him with a piece of paper in his hands. His face was lit with elation.

"Alan! Alan! Luckiest thing in our life! d—d lives! Look here, hair

left; weren't here when that pack came! Went after caribou! Almost

too good to be true!"

Alan grasped the note and read. It was in Joyce's fine swift handwriting. No doubt about that. It stated that she and old Pence had gone to Black Timber lake thirty miles north to get caribou and would be back in two days, in case a patrol happened past.

Alan studied the note for half a minute. His face did not relax.

"Yes, too good to be true," he commented slowly. "Don't you see?—This note is addressed to Constable Larry Younge. Why did Joyce write it? She knows Larry is not patrolling; knows he is at Endurance all shot up; and she knows we know it. Don't you see what she tried to do? It was her only way of telling us that something was wrong. She had to write this note as they dictated it, but she tricked them."

"It's so, it's so," Buzzard agreed. "She tricked them under their very eyes, and counted on us to understand."

From room to room—Joyce's room, her father's, the kitchen, the trading hall, the ground outside—Alan went carefully, noting signs, reading the story of what had happened.

Nothing about the post was disturbed. There were no signs of a struggle or fight. Joyce's light rifle still hung on a peg in her room. Its barrel inside was clean and shiny; the weapon had not been fired. Joyce must have been surprised and over-powered without a chance to fight back.

At the clearing edge Alan found a trampled spot in a thicket where five men had lain and watched. Kneeling

down, examining the broken twigs, the withered leaves, the crushed nettles, he read that all this had happened three hours ago and that the criminals were thirty or forty miles up the spruce-buried Aloska, with Joyce their prisoner.

(To be Continued.)

## Work Savors Of Magic

English Potter Makes Flower Pot By Hand In Twenty Seconds

Today in modern England you can see potters working in the same way as they did in the times of the Bible. The reason is that every garden flower pot is moulded by hand on a wheel practically identical in design with that used in biblical times. There's no need for machinery, for the potter can make a pot in twenty seconds. One large pottery is in Sussex, a county famous for its clay. The clay lies in layers. The top layer is used for bricks; next comes the yellow "tile" clay, and finally the good red pottery clay—strongest of all—which is made into flower pots. The clay is first dumped into tanks of water, where it lies for a week. Thence it goes to the mill and is finely ground. From the mill it is taken in half-hundred weight blocks to the room where the "pot spinners"—as they are called—sit at their wheels.

A spinner first weight out his

lumps of clay—1½ lb. goes to a 5-inch

pot—and piles them up beside his

wheel. The wheel which is horizontal,

stands in a shallow sink, half-full of

warm water. The spinner seizes a

lump of clay, puts it in the water,

slips it down on the wheel and cov-

ers it with his hands. At the same

time he works the wheel with his

foot. In a few seconds up rises a

dummy pot. A few seconds more,

moulded by the spinner's hands, it

has risen to its full height, complete

with rim. The whole business savor

of magic. Promptly the spinner slips

a piece of string beneath the finished

pot and whips it from the wheel.

It gives in his hand as though made

of rubber. It takes twenty seconds

to make a five-inch pot.

THE RHYMING OPTIMIST  
By Alice Michalek

## FLYING DAYS

The days are short; almost we see  
no wings of morn and purple wings of  
eve; we, who watch the hours passing  
by, Can scarcely welcome them before  
they get there.

We would not seem to stay the moving  
time; Or could marching of the stars  
through space; Why, then, must we be still disaffed?  
That time goes ever at a breathless  
pace?

In all the universe there is no pause,  
Change wings change on never-resting  
in wheels;

Or who sees to read the cosmic  
laws

Must follow motion till his tired mind  
rests.

The days are short; why should we  
clutch to hold

Night's velvet wings or morn's bright  
wings of gold?

## Must Disclose Transactions

Demand For Full Information From Brokers Is Legal

Brokers and financial institutions will be required to make a disclosure of all bond transactions of either purchase or sale, switches or changes from taxable to non-taxable issues or otherwise, that have been effected since the budget came down, according to the department of national revenue.

The purpose is to have a full and complete disclosure of all dividend and bond interest income in the income tax returns of all taxpayers. The department states that, under the general provisions of the Income Tax Act, there exists legal authority for demanding this disclosure from brokers and financial houses.

## THE DAY WE CELEBRATE

Wednesday next is Empire Day, arrangements being made for what is hoped will be a fitting celebration of the day in the schools of the country, and citizens in general are looking forward to the holiday with pleasant anticipations and probably a minimum of patriotic fervor. The twenty-fourth of May is our first summer holiday and is always welcome, as it is usually expected that summer will be really here when it arrives, and a day for play in the sunlight is very welcome when one can feel that winter has quite gone. Perhaps we will be forgiven if there is not much more than a breaking forth of springtime gladness in our observance of this day.

It is not easy to remember in any vivid sense what some of these special days of remembrance are all about. Sometimes the celebration has value because it becomes the occasion for a refreshing of memory; sometimes it is just as well that of taxes.

The twenty-fourth of May was first celebrated as the birthday of Queen Victoria, "Victoria the Good," as some will still persist in calling her, notwithstanding Mr. Strachey. When we celebrated the day as the Queen's Birthday, it was easy to have something like a thrill of fervor in relation to it. But it has now become Empire Day, and the British Empire is a very immense affair and as varied as it is big, and it isn't as easy for many of us to warm up toward it as we once did.

Not that we do not b lieve in the British Empire and claim to be loyal subjects within it; but we are very much more inclined to ask questions about it than to start in to shout about its glories, and to think of its responsibilities and dangers rather than of its marvelous history throughout the centuries.

As a matter of fact, ours has become a too-embarrassed world for any careless indulgence in the mere flag-waving that used to be seen as a quite legitimate enterprise. Patriotism is no doubt as good a thing as it ever was, but it isn't quite the thing that it was thought to be some years ago, and it isn't at all safe to judge of any man's patriotic spirit by the noise he makes on any national gathering.

There was a man named Henry Giles who said a good thing about patriotism many years ago. What else he said or did we do not know, but this certainly ought to be set down to his credit. And it ought to be set down for your and my education:

"It should be the work of a genuine and noble patriotism to raise the life of the nation to the level of its privileges; to harmonize its general practice with its abstract principles; to reduce to actual facts the ideals of its institutions; to elevate instruction into knowledge; to deepen knowledge into wisdom, to render knowledge and wisdom complete in righteousness, and to make the love of country perfect in the love of man."

The visioning of such a patriotic ideal as that is not likely to see us off to the mere enterprise of shooting firecrackers or of fervid oratory over great national achievements. Perhaps the true patriot ought to be much more given to looking ahead to see the duties and responsibilities that fronted his nation than to looking back to recount the great deeds of the past. And that might suggest

## A. S. HOOKE TRUSTEE

It was recently brought to attention that the School Act could very well be amended in certain respects. Under the present law a school trustee need not be a property owner. He must be able to read and write and be 21 years of age. But he need not own property.

It is not customary to elect trustees who have no stake in the municipality, but apparently it is legal to do so. If an entire school board were made up of men who, however well intentioned, did not pay taxes, there would naturally be much less regard for costs of operation than would exist amongst a ratipaying body.

An amendment to the Act certainly seems advisable. This is no reflection on the capability, or conscience of trustees who do not own property in the district which they serve. But it is reasonable to suppose that all things being equal, a ratipaying would keep a keener eye on expenses than a non-ratipaying. Added to this is the greater permanence of interest on the part of the property owner.

In these days, particularly, when expenditures must be weighed carefully, and when the paramount thought is the municipality's ability to pay, special attention must be given those who are elected to serve the district. While those who occupy rented property are no doubt supposed to pay their share of taxation through rent, yet this has not the disciplinary thought provoking effect that results from the direct payment.

There are, of course, the public servants, whose minds are ridden by penny saving, to the exclusion of efficiency, and general well-being. But these examples are rare, and the public is not slow to recognize such a fault.

Taken over the average, it would seem much safer to have school affairs in the hands of those who share in the responsibility of meeting the bills rather than in the hands of those with no financial responsibility.—Examiner.

A big Victoria Day celebration is to be held at Macleod.

Mr. and Mrs. Flint (formerly Mrs. L. Benson) were in town from Michel on Sunday.

Mr. and Mrs. Steve Lapka, of High River, are visiting friends in The Pass.

Several local speed artists paid for that privilege in the local court the early part of the week.

A son arrived to Mrs. George Sangster in Halifax last week. George says he hasn't been that way (Halifax) for years.

Mrs. J. A. Kerr and Mrs. L. J. Dorgan were visitors to Lethbridge, the early part of the week, attending the musical festival.

A dance will be held in the Union hall at Frank on the night of Monday, June the 5th, under auspices of the Frank-Canadian Social Club.

'Don't miss the special attraction at Hillcrest on the afternoon of May the 24th—Galt Miners, undefeated Lethbridge football team, versus Hillcrest.

A HINT TO HOUSEWIVES—Come and see how Liza Pearl (Mrs. Sidney White) does the housework for the "Twelve Old Maid" at the United church auditorium on the night of May 26th. You'll laugh yourself sick.

Vandalism was practiced here last week and it is too bad that the perpetrators were not caught in the act. Recently, caragana bushes were planted around the grounds of the central school, and a three-wire guard rail was erected to protect them from injury by the children. Some grown-up (for it certainly could not have been done by a child) made use of heavy pliers and in several places snipped off the heavy telegraph wire, and in numerous other places are evidences where their attempts at snipping were unsuccessful.

a good way of testing the kind of patriotism that moves us.—Examiner.

BLAIRMORE UNITED CHURCH  
Rev. Albert E. Larke, MinisterServe the Church that the Church  
May Serve You.11 a.m.—SENIOR SCHOOL  
2 p.m.—JUNIOR SCHOOL  
7:30 p.m.—PUBLIC WORSHIP.ST. LUKE'S CHURCH NOTES  
Rev. A. S. Partington, B.A., Rector

Next Sunday is the 5th after Easter, commonly known as Rogation Sunday—the time of asking the Divine Blessing upon the seed sown in the earth. The services will be:

10 a.m.—Sunday School.

7:30 p.m.—Evening and Sermon.

Rev. W. R. Jeffcott, rector, of Pincher Creek, will be in charge of the service. Mr. Sidney White will accompany the organ and will also play a violin solo.

## TODAY'S REFLECTION

What a pleasantly giddy-provocative thing it has been to see the cosmopolitan gatherings at the local music festival competitions. Not only in the children's classes, but also in the adults' there has been a combination of peoples of many nationalities joining together in the musical entries. This is as it should be, and it is a credit to any group to acknowledge talent wherever they may be, regardless of color or creed and work together for the good of the cause, whatever it might be, musical or otherwise. Working for the greatest good for the largest number of people is the thing that counts.—Lethbridge Herald.

Two persons were killed when travelling north from Carmangay was hit by a passenger train.

The annual conference of the United church of Alberta will be held at Calgary next week, commencing Tuesday.

A concert is to be staged in the Orpheum theatre on Sunday evening next under auspices of auxiliaries of the local M.W.U.C. of C.

A rod-ridder from Bellevue, who has been in custody on remand for four days at Lethbridge, was given four days' imprisonment by Magistrate H. G. Savage was found not guilty by the criminal court at Edmonton of attempting to pervert the ends of justice by seeking the swearing of a false affidavit regarding the Robert Judge case.

George Sangster has been suffering from a cold, accompanied by a severe cough. We understand that he took a ride into Calgary, where he bought a ticket on a bottle of highly-recommended cough remedy, and was declared the lucky winner.

Publishers from end to end of Canada were deeply grieved to learn of the death at Winnipeg on May the 6th of H. J. Hardis, manager of the Toronto Type Foundry Company, Limited.

In her suit for divorce, Mrs. Loretta Miller, Chicago, charged that her husband's preference for blondes was so pronounced that he left her for four times, and that four times she had to bleach her hair to win him back. Her husband finally deserted her altogether, she said.

ALBERTA AMATEUR  
BASEBALL ASSOCIATION

The Alberta Amateur Baseball Association is the recognized governing body for baseball in Alberta.

Fees are \$12.00 for senior, \$7.50 for intermediate clubs, \$2.50 for junior clubs, while midget and juvenile clubs are given membership free.

The membership fees include 12 amateur baseball playing certificates; additional playing certificates cost 25¢ each. There is no limit to the number of the players any club may register. The last date for registering players in order to become eligible to play in the 1933 Alberta championships will be decided at the annual meeting.

In addition to the five championship cups the Association also has six challenge cups for perpetual competition between 24th May and Labor Day in each playing season.

The province has been divided into six districts and one cup allotted to each district the boundaries of the districts being:

1. All clubs located north of township 40 and outside city of Edmonton.

2. All clubs located in townships 27 to 40 inclusive West of range 20 W. 4.

3. All clubs located in townships 27 to 40 inclusive East of range 20 W. 4.

4. All clubs located in townships 19 to 26 inclusive and outside city of Calgary.

5. All clubs located in townships 9 to 18 inclusive.

6. All clubs located in townships 1 to 8 inclusive.

Rules governing these challenge cups are simple; but in order to compete for any of these cups players must be registered with this Association, and no player can play for more than one club in any season.

Districts have arranged so that travelling is reduced to a minimum, and clubs are not compelled to defend their cup more than once each week of the playing season, unless they desire otherwise.

In order to encourage the smaller centres, teams located in cities of Calgary and Edmonton are not eligible to compete for these cups.

All challenges must be made in duplicate, in writing, and sent to E. D. Battum, 219 P. Burns Building, Calgary, Alberta.

By agreement with the Amateur Athletic Union of Canada, authority has been given to grant permits to registered amateur baseball clubs for games between amateur teams and team composed of professional or unregistered players.

A permit is required for each game so played. All applications for these permits must be made to E. D. Battum at Calgary, Alberta, at least 48 hours prior to the date of the proposed game.

Any further details will be gladly furnished you upon request.

It is hoped that the local clubs will compete in some section of the Alberta Amateur Baseball Championships this year and that the clubs will be represented at the annual meeting, date and place of which will be advised later.

A football league game will be played here on Monday evening next, at 6:15, between Fernie and Blairmore. Buy a tag.

Towns in this end of The Pass figure they are up against hard times. What about Fernie, with all that has been said against it in the past few weeks. Business people of Fernie are out to say "There is no depression," and the local paper in that town is crammed full of good live advertising.

Harvey Murphy will attempt from a public platform to ridicule people who have been good citizens since the town came into being—people who have in all that time maintained full respect and who were and always have been ready and willing to help their next door neighbor when occasion required. Some may have slackened down in their donations because of the Reds' demand policy.

FORMER MICHEL GIRL  
DIES SUDDENLY

The community of Michel received a great shock upon receiving the sad news of Mrs. Robert Sommers, nee Miss Marion Henney, who died very suddenly on April 30th, in the hospital at Dawson Creek, in the Peace River block, where she resided with her husband who has been teaching school in that district for the past two years.

Deceased was twenty-four years old and is the youngest daughter of Mr. and Mrs. Jonathan Henney, who came to reside in Michel about fourteen years ago from Cassidy, Vancouver Island. The body was transferred from Dawson Creek to Michel, accompanied by her husband and her father and mother. The funeral was held on Friday, May 5th, from the home of her parents, and proceeded to St. Paul's Anglican church, which was filled to capacity, many not being able to gain admittance, where a very impressive service was held by the Rev. Mr. Holmes, of Fernie.

The cortège of cars extended over half a mile carrying mourners and friends to the cemetery to pay their last tribute of respect to one of the most popular and respected young women of this community. floral tributes and cards of sympathy were in abundance, which included wreaths from the B. C. Miners' Union, and the officials of the Crows' Nest Pass Coal Co.

The husband, father and mother, and relatives of the deceased, wish to express their appreciation for the kindness and sympathy shown in their sad bereavement.

The following officiated as pallbearers: Dr. G. F. Young, T. Branch, R. McFegan, H. A. LeRoy, J. P. Henderson, and B. Ball, Jr. G. Fisher, of Natal, had charge of the funeral arrangements. Constable R. S. Nelson is to be complimented upon the manner in which he supervised the arrangement of cars at the church and at the cemetery to avoid accidents.—Fernie Free Press.

Newfoundland adopted daylight saving time on May the 7th.

For specialty singing, come and hear the "Old Maid" at the United church on Friday night, May the 26th. Each singer is a leather medalist.

While repairing the wheel of his bicycle at Macleod, Ted Thaell had the misfortune to cut about a quarter inch off the first finger of his right hand.

A daughter was born to Mr. and Mrs. William R. Atkinson, at Peace River on April the 30th, weighing eight pounds and two ounces. Grand-dad is quite cheerful, while dad and mamma are to be congratulated. "Bill" is a son of Mr. and Mrs. Joseph Atkinson, of Hillcrest,

No Time Lost from Work!

No enforced rest. No operations nor injections. The simple Emerald Oil home treatment permits you to go about your daily routine as usual, while those old sores and ulcers quickly heal up and your legs become as strong as new.

Emerald Oil acts instantly to end pain, reduce swelling, stimulate circulation. Just follow the easy directions and you are sure to be helped. Blairstone Pharmacy won't keep your money unless you are.

It must have been a heart-breaker to Murphy and his following to find that they were not privileged to do as they pleased and hold an open-air meeting in Blairstone on Sunday afternoon last.

The Labor Defense League is still trying to get Tim Buck out of the penitentiary. It will be hard to make many believe that Buck did not have a fair trial, and public order must be preserved, if possible, and violent revolutionists held in check. At the same time, some attention should be given to the recruiting agencies of revolution, and the most efficient recruiting agencies of revolution are the high financiers. Without their crooked finance, the "red" agitators would have very little material to work on, and business interests should be kept straight, as well as the revolutionist. What brings revolutions?—MacLeod Gazette.

## District News From Our Own Correspondents

### HILLCREST HAPPENINGS

a visit at Similkameen, B.C., for a few days.

### BELLEVUE HAPPENINGS

A musical treat will be offered in the United church here tomorrow (Friday) night. The programme and concert is being put on by the members of the local choral society.

Mrs. James Cardle was a Lethbridge visitor on Saturday.

Hillcrest football club took the long end of a 4-2 score in the first game of the Crows' Nest Pass League when they defeated the local eleven here on Saturday.

Harvey Murphy addressed a mass meeting in Cole's theatre on Sunday evening.

Mrs. Robinson, of Stettler, grand president of the Alberta Rebekah Assembly, was a guest of Miss B. Radford on Wednesday. She left for Macleod on Thursday morning.

J. Tutt was a Lethbridge visitor on Sunday.

James and Leslie Cousins journeyed to Lethbridge on Sunday and returned with a new Dodge special sedan.

Mrs. R. Shevels, Mrs. M. M. Eacham and Miss B. Radford were joint hostesses to a number of friends for bridge on Monday evening at Mrs. Shevels' home. After bridge, a dainty luncheon was served. Bridge honors were won by Mrs. J. J. McIntyre, Mrs. Cranston and Mrs. A. Coupland.

Messrs. W. Kerr and C. Emerson were Fernie visitors on Sunday last. Mr. and Mrs. Tuftland were weekend guests of Dr. Reinborn.

Mrs. S. Robinson made her official visit as president to Ray of Hope Rehabilitation Lodge on Wednesday night of last week.

Mr. and Mrs. Frank Newnham, of Calgary, old Fernie citizens, motored through town on Tuesday on their way back from a two-months' holiday in California. Frank, during the last few years, has branched out in the manufacture of cartons, and is doing very well. Mr. Newnham for a short while a few years ago was connected with the Coleman newspaper.

Mr. and Mrs. Mackenzie (nee Lucy Carter) and baby are visitors at the home of Mr. and Mrs. B. Carter. Mrs. Carter and daughter Bessie also returned with them from Great Falls, where they have been making a prolonged visit.

A beautiful service, emblematic of Mother's Day, was held in the United church here on Sunday last by the girls of the C.G.I.T. for which they had been training for several weeks.

### COWLEY HAPPENINGS

Miss Vera Tench, who was operated upon for appendicitis in the Hillcrest hospital last week, is reported getting along nicely.

The belt of trees around the Cowley cemetery was cultivated on Wednesday afternoon by volunteer help. These trees, which were set out only a few years ago, have been well cared for, and are making a steady growth.

The Porcupine team won from the River Rats on Sunday afternoon in a game of baseball, which resulted in a 4-2 score. The game was played on the River ground.

Friday afternoon, the Cowley junior baseball team went down to defeat with a score of 4-14 to the Lundbreck juniors on the Lundbreck field, this being the first game of the season.

Six inches of snow fell over the district on Tuesday night, further delaying farming operations. Owing to shortage of feed and the late spring, there is considerable loss of cattle reported throughout the district.

The buds in the trees have been bursting into young leaves the last few days, and everything is taking on the newness and freshness of spring at a belated hour.

Michael Elton is paying his parents

### ENJOYABLE PROGRAMME GIVEN AT HILLCREST

Cole's theatre was packed to capacity on Wednesday evening of last week, the occasion being a concert given by Mrs. Enid Cole Gurney and her pupils, supported with Miss Carla Kuryluk. The programme was dedicated Mother's Day. The applause of the large audience showed their appreciation of the various numbers presented.

Mrs. Gurney sustained the standard that has established her popularity, in featuring two comedy sketches written by herself, "How Many Apples;" a reading; and a one-act play, "Jimmy Takes His Medicine." Special mention must be made of the beautiful costumes, and the attractive lighting effects. Following is the programme of the concert as presented:

Greeting by Enid Gurney, especially dedicated to mothers; vocal solos, "The Second Minuet," "Now We're On Our Second Honeymoon," by Enid Gurney and danced by Mildred Fisher and Irene Wells. This was followed by a tap dance, "The Naughty Waltz," by Carla Kuryluk. The five piece "Nite Owls" orchestra, consisting of Norman Miller, Percy Leitch, Bill Kyle, D. O. McKay and Rinaldo Damico accompanied the numbers. Two readings, "When Grandma Was a Girl" and "The Flapper and the Old Lady," by Mildred Fisher were well received; a dance, "Polka Minuet," by Irene Wells and Juanita Cranston; two readings, "Humoresque" and "How Many Apples?" by Enid Gurney brought down the house; a vocal solo, "Rose O'Reilly," by Juanita Cranston and a Valse Minuet danced by Batty Ritchie, Yolanda Civitatis, Juanita Cranston, Irene Wells, Mildred Fisher, Kathleen Price, completed the first half of the programme.

The second half of the programme was opened by a one-act play, "Jimmy Takes His Medicine," Enid Gurney as mother, Mildred Fisher as Peggie and Irene Wells as Jimmy. The parts were very ably portrayed. This was followed by a tap dance, "Marry Me," and an acrobatic dance by Carla Kuryluk; also two vocal solos, "By the End of the River" and "Your Tony From Paradise," by Enid Gurney; readings, "Soap" and "Caster Oil," by Mildred Fisher; the "Butterfly Dance," by Irene Wells; two readings, "Danny" and "Contract Bridge," by Enid Gurney; "Hungarian Gypsy Dance," danced by Carla Kuryluk; two readings, "Billy Plays Santa Claus" and "A Future Orator," by Eddie Price; a tap dance, "Oh Mammy," by Irene Wells. The "Spanish Tango," danced by Enid Gurney and Carla Kuryluk received a big ovation and concluded the programme.

Altogether the entertainment was of a very high class order and special praise is due Mrs. E. Cole Gurney and others who assisted in producing such an entertainment.—Ex.

The national convention of the L.O. D.E. of Canada will be held this year in Alberta, taking place in Edmonton next week.

The International Way

The more extensively a person reads apparently authoritative articles and books dealing with present day economics; the more intently he studies, investigates, and seriously ponders over political, economic and social problems with an open and discerning mind, the more such a person becomes convinced there is, after all, only one way by which solutions for existing problems and difficulties can be reached,—and that is the international way.

Consider the Canadian position as an example, and the situation in this country is in most respects similar to that existing in other countries throughout the world.

This Dominion is a land of great natural wealth; its people are intelligent, progressive, and anxious and willing to work. They have enjoyed a high standard of living in the past, and desire it to continue. They possess political and religious freedom, and have inaugurated and maintained social services for the benefit, not only of individuals but for whole communities and the nation.

Nevertheless, at the moment, the development of natural resources of Canada, our great reservoirs of potential wealth, is at a standstill, while hundreds of thousands of men and women remain unemployed and approximately one and a half million of the population are subsisting on relief provided by the State. The standard of living is falling, not rising; social services are being abolished or curtailed; the burden of public debt is growing every day, and heavier and ever heavier taxes are being imposed.

What is wrong? Is Canada, and the Canadian people, alone to blame? Are they even chiefly to blame? Are our public men in Governments, Parliaments, Legislatures, Municipal Councils; our bankers and financiers; our captains of industry and transportation; our leaders in commerce and business and agriculture; our leaders in church and education,—are these chiefly responsible? Is it the system in vogue in Canada under which all our life activities and institutions have been operated and governed in the past, and under which great progress was made, responsible for the present breakdown?

Some short-sighted people will thoughtlessly say "Yes," and will try to convince others that the whole trouble lies in the system and that Canadians, if they will, can solve their own problems by their own action; that all they have to do is to change the present system, and create a new one based on an entirely different set of principles. And the same thing is being said in other countries.

This, however, is a superficial view. Suppose Canada could tomorrow create within its own borders an absolutely ideal 100% perfect monetary, banking and credit system while other nations adhered to their present systems and methods, would that solve Canada's problems? Intelligent men and women realize it would not.

Suppose Canada tomorrow adopted absolute free trade with the world in an endeavor to endow the world with the exchange of commodities and once again set in motion all the great activities bound up in trade and commerce, while other nations adhered to their present policies, would that put Canada's unemployed to work and revive Canada's agriculture? Again, the answer is most decidedly "No."

The solution for our present economic problems is not to be found in a complete change in the system now prevailing in Canada,—that would merely result in still greater unsettlement, in confusion ending in chaos, and more widespread loss and suffering—but it is to be found in international action. It is only so it can be found.

But what Canada and the Canadian people can do, and ought to do, and we believe, are striving to do, is to encourage such international action, and to create those conditions and ideas in the minds of the people of other nations that will make such international co-operation and action possible. This Dominion can show to the whole world that it is ready and eager to join hands with any other nation, or any group of nations, in the task of breaking down narrow nationalistic ideas, suspicions and fears. Every opportunity that presents itself,—and where they do not present themselves Canada should make them,—no matter how small it may be, should be quickly grasped, and Canada should indicate, without reserve, that it is prepared to go a long way in the direction of meeting other nations and peoples in providing needed solutions to existing problems.

Organized labor had the germ of the right idea in its international labor brotherhoods organized for mutual protection, but, unfortunately, even within those brotherhoods a selfish nationalism existed, with the result that organized labor in one country proceeded to support selfish trade policies designed to protect themselves but to do injury to their fellow workers in another country. The folly of this has been brought home to these in years of depression, just as it has been brought home to the business and great world leaders in all countries. Narrow nationalism only won't work. That is what is fundamentally wrong with the prevailing system,—the attempt by each nation to shut itself up in a watertight compartment away from all other nations, and in so doing is slowly but surely starving itself to death.

The tearing down that is necessary, is the tearing down of the whole network of wire entanglements and barriers of one kind and another that the nations have erected against each other; the destruction that is called for is the destruction of the narrow nationalistic ideas and fears of people. Let the nations get off the by-paths of narrow nationalism and on to the broad international highways of the world, and the depression will pass like a mist before the rising sun; unemployment will give place to industrial and business activity everywhere with the workers of one nation not begrudging work to other nations provided they are busily at work themselves, as they would be; and the primary producers on farms, in forests, fisheries and mines will again enjoy adequate markets and remunerative prices for the things they produce.

The international way is the world's highway; the international method is the Twentieth Century Method.

The United States is the largest consumer of asbestos in the world.

England has 3,500,000 dogs, according to a recent census.

Java has an extensive back-to-the-baldness movement.

Australia has banned all cure-for-baldness advertising.

### Pains Around Her Heart

#### Tired Out After Doing Housework

Mrs. Henry Banc, Muriel Lake, Alta., writes: "Last fall I had bad pains around my heart and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out."

Seizing that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box, and took the pills for a few days. I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Montreal, Que.

### Needle and Pin Industry

Little English Town Supplies Practically All World Requirements  
At a recent banquet of the Needlemakers' Company the Master stated that last year Great Britain manufactured 750,000,000 needles. Most of them were made at Redditch, in Worcestershire. Nearly all the needles, all the pins and all the fish-hooks in the world are made at Redditch. Nearly everybody in Redditch is employed, making needles, pins and fish-hooks, and their ancestors have done so for hundreds of years. The Redditch factories are the most efficient in the world and are in an impregnable position.

If they turn out 750,000,000 needles a year, that means that in two and one-half years they make enough needles to give one to every human being on earth. Query: where do the billions of discarded needles go? The disposal of safety razor blades is an awkward problem. What about needles and pins? They must be put somewhere, else there would be no demand for hundreds of millions of needles each year. In fifty years Redditch must produce enough needles and pins to carpet the earth and seven seas. Yet one scarcely ever sees a needle or a pin lying around. In fact a pin seems about the scarcest thing imaginable sometimes when it is badly wanted.

Needles, pins and fish-hooks are just one branch of manufacture that Great Britain stands supreme in. There are hundreds of others.—St. Thomas Times-Journal.

### Worked For Progression

Mrs. Mary Ellen Smith Was One Of Canada's Outstanding Women

Usefulness—this is the term, and with an emphatic ring to it, to be applied in contemplating the career of Mrs. Mary Ellen Smith, whom death claimed at Vancouver at the age of 72 years. Mrs. Smith, the first woman Cabinet Minister in the British Empire and for 10 years a member of the B.C. Legislature, was useful to her adopted province and to Canada and even the Empire at large, over a period of many years. Her interests, her contacts, were many, but every one of them counted for something. Mrs. Smith was a worker for the good and the progressive in life. She was a pioneer in the woman's suffrage movement in Canada; in the Legislature and out she championed the cause of the Negro, the children with minimum wage legislation, better working conditions in factory and the shop and in many kindred matters. Educational movements, patriotic movements, whatever spelled reform and a forward look, immediately and enthusiastically invited her attention.

Mrs. Mary Ellen Smith, whose husband, before her, left his mark upon Canadian life as a member of the House of Commons and later as Minister of Finance in British Columbia, was one of Canada's outstanding women.—Regina (Evening) Leader-Post

### Seal Herd Going North

Escorted By Canadian and U.S. Vets To Prevent Poaching

Their way north to breeding grounds on the Pribioph Islands, Alaska, huge herds of approximately 1,500 for seals have been sighted off the Washington coast. They are followed to the international line by United States patrol cruisers and a total of one thousand vessels take over the assignment. At the Alaska line the Canadian vessels withdraw and the United States cutters resume the journey.

The object of the escort is to prevent poaching. Under the terms of the sealing treaty of 1911, all hunting of seals is forbidden except by Indians, in canoes, and armed only with spears, bows and arrows or harpoons. Power boats and rifles are banned.

### Too Much Work

Unique postman in Estoril, Saghalien, Japan, whose route was over rough roads, saved the mail for three years with the intention of delivering all the letters on one trip. When he had collected 4,000 letters he was still tired and burned the lot.

### Academy Rejects Painting

A painting by Mary Symons, entitled "The Last Supper," and depicting Christ and His apostles in lounge suits, collars and cravats, seated at a modern table, has been rejected by the Royal Academy of Britain.

### A Valuable Penknife

The largest penknife in the world is now on show in London. It was made in 1851, and has 1,851 blades, each of which can be opened. Each blade is a perfect penknife. The knife weighs over three stone. An offer of \$7,500 for it has been refused.

### New Fire Fighting Inventions

One Uses Only Water To Put Out Oil Fires

Some new fire-fighting inventions were described by Commander A. N. F. Firebrace, Divisional Officer of the London Fire Brigade, in a lecture before the Royal Society of Arts. One was a method of putting out oil fires with water only. Another was a Hungarian appliance which extinguishes small fires by pumping on to them carbon dioxide and carbon dioxide gas—the gas obtained by purifying and treating the exhaust gases of the internal combustion engine which propels the appliance. The system by which oil fires are put out with water alone has been evolved during the last year. It has received the approval of the Board of Trade for ship installations and has been fitted in some instances on shore; but so far it has only had a chance to prove its worth under test conditions. Water sprayers are so fitted that every space, concealed or otherwise, can be bombarded with spray under pressure. The bombardment of the surface of the oil breaks it up into a multitude of tiny globules, each surrounded by a thin film of water. This emulsion, as it is called by chemists, will not burn, since the flame only reaches the water film surrounding the oil globules. The surface of the liquid being thus non-inflammable, the fire at once goes out.

### Gasoline Tax Refunds

Will Be Subject To a One Cent Deduction in Saskatchewan

Gasoline tax refunds to Saskatchewan farmers operating power machinery will be subject to a one cent deduction to cover the cost of administration effective as from January 1. Announcement of the inauguration of this policy as from the beginning of the current calendar year was made by Hon. A. C. Stewart, Minister of Highways.

The policy is in line with that operating in Manitoba, Alberta and British Columbia where deductions to cover administrative cost are made.

### Death Penalty For Theft

Soviet Authorities Make Drast'c Order To Stop Grain Stealing

North Caucasus authorities have ordered death penalties to prevent theft or diversion of seed grain loaned by the central government.

Death was made the penalty not only for the thieves themselves, but also for officials whose negligence made the thefts possible.

The Moscow press attributed grain thefts to sabotage by kulaks.

Umbrellas are to be supplied free to patrons of a movie theater in Madrid, Spain, in case of sudden rain.

An evening air service between London and Paris has just been inaugurated.

When Your Daughter Comes to Womanhood Give Her Lydia E. Pinkham's Vegetable Compound

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound.

The largest penknife in the world is now on show in London. It was made in 1851, and has 1,851 blades, each of which can be opened. Each blade is a perfect penknife. The knife weighs over three stone. An offer of \$7,500 for it has been refused.

### Preparing For World Economic Conference

Representatives Of Sixty Nations Are Expected To Attend

Some 1,500 delegates representing sixty nations are expected to attend the world economic conference in London, England, which, it is expected, the organizing committee will summon for June 12. This is the best news London's hotels and shops have had since the world slump. Various delegations and embassies are already arranging receptions and dinners for the conference. The sessions will be held, appropriately enough, in the London Geological Museum. Around a spacious hall 100 feet long by 150 feet wide, supported by towering pillars, the London post office is now rising. Telegraph and telephone facilities, which are claimed makes London the "switchboard of the world." In the centre of the room is a titanic twelve-ton statue of Hercules to inspire the modern Atlases in their work.

### New Type Of Banana

Trinidad Produces Fruit Immune To Panama Disease

The discovery of a new type of banana at Port of Spain is expected to make economic history in Trinidad.

Thomas Potter, the secretary of the Agricultural Society, told an audience the banana was of the same size and color as the Jamaican banana.

It promises to meet all requirements of the export trade and is described as the "banana of the future." A government committee recently recommended a grant of £2,000 to develop banana exports from the colony.

The Tropical College is now experimenting to find the best temperature for sea transport of bananas.

### Market Is Improving

Japan Is Buying More Of Canada's Raw Materials

Japan's market for Canadian raw materials is gradually improving, writes J. A. Langley, commercial secretary in Tokyo, in the Commercial Intelligence Journal.

The wheat market is quite active, but owing to price considerations, is entirely in the hands of Australia.

However, in such foodstuffs as cheese and macaroni, the Canadian share of the market is going up monthly, particularly in macaroni.

### The Prairie Field Crop Acreage

Over two-thirds of the field crop acreage of Canada is concentrated in the three prairie provinces, and most of this area is seeded to the grain crops, with wheat predominant. Roughly speaking, the specialized wheat areas cover the southern short-grass plains from the Red River Valley of Manitoba to the foothills of Alberta and attain their greatest width in central Saskatchewan.

### Seed From Peace River

Far-famed world champion wheat of the Peace River will be seeded in Newfoundland this season. Made up half of Reward and half of Marquis, a carload from Wembley, Alberta, has been forwarded to the Empire's oldest dominion. Much of the shipment came from the farm of Herman Trelo, world champion wheat grower.

Old Roman ruins at York, England, are being flooded to accommodate night visitors.

Shaving is a real pleasure with a fine quality shaving brush like this one . . . bristles set in rubber . . . a gift you'll surely appreciate and use. Given in exchange for only 5 complete sets of Turret Poker Hands.

One 20c package of Turret Fine Cut will prove the quality and economy of this mellow, cool Virginia cigarette tobacco. You can roll at least 50 cigarettes from one package . . . and cigarettes of sweet Virginia fragrance and flavor . . . supremely satisfying.

### Should Be Investigated

Canada Might Develop Market In Japan For Coal

Japan recently placed an order for 250,000 metric tons of coal with various colliery companies in Mexico. It is understood that this order is a sample one, and that the Japanese government will make tests to discover the fuel value of the Mexican product.

The news has created considerable interest in Canadian coal mining circles. Vast quantities of bituminous coal are available for export from this country. Its quality is good; and its accessibility, in many areas, so ready that labor of mining involved should enable it to enter into world markets at minimum price.

If Japan has a market of any size for the type of coal that Canada can supply, it is one that should be thoroughly investigated. Any opportunity of making employment for labor and giving an outlet for capital investments, is of special moment in these difficult times.—Winnipeg Free Press.

### Moderate Tariff Policy

U.S. Finds Extreme Isolation Greatest Danger To World Peace

President Roosevelt's secretary of state, Cordell Hull, told the American section of the International Chamber of Commerce, in an impassioned speech, that America must lead the world back to moderation in tariff policy, and asserted extreme isolation is "the greatest danger to world peace."

Pointing to the huge sums owed to the United States, the secretary asserted the country's policy since the war has ignored the fact that these obligations can be paid only in gold, services, or favorable trade balances.

He referred to the administration's policy as one of "reasonable, moderate, decent" tariffs, not "no tariffs, nor even low tariffs."

### Now You Tell One

Tennessee Man Had Hog Weighing Ton and Half

"Big Bill," king of porkers, is dead. Heraldized by his owner, Walter Chappell of Martin, Tennessee, as the world's biggest hog, "Big Bill" tipped the scales at 2,550 pounds. Chappell planned to fatten him up to 3,000 pounds and take him to Chicago for the Century of Progress Exposition.

"Big Bill" was willing, but a foreleg broke under the strain of so great poundage and caused paralysis. Chappell, tears in his eyes, ordered the heavyweight Poland China boar chloroformed, and today a taxidermist here had been commissioned to make "Big Bill's" size a thing for future generations to marvel at.

The oldest ski in the world is in a museum in Stockholm, Sweden. It is believed to be 3,900 years old.

W. N. U. 1944

## OPPOSITION BY GERMANY SHOWN AT ARMS PARLEY

Geneva, Switzerland.—Delegates of the "Big Five," nations to the world disarmament conference at a special session again failed to reach an agreement on vital issues and decided to leave the entire question to the steering committee, which will decide the fate of the conference.

The "Big Five," comprised of delegates of Great Britain, France, Italy, Germany and the United States, called the meeting in an attempt to get the conference back on the rails after a near-wreck through the continued refusal of Germany to cede from its position.

Count Rudolph Nadolny, German delegate, again refused, during informal discussions, to abandon Germany's position that the country can not accept some of the proposals in the British disarmament plan. Those referring to armament armistices rather than long-term groups, were particularly concerned.

The atmosphere was pessimistic. The leaders even clashed on the question of procedure to be followed, the count insisting the conference should discuss reduction of war material before again considering the reduction of armed forces.

All the others present insisted on settling the armed forces question first.

It is expected that the German position will be opposed by a majority of the steering committee.

The possibility also existed that the conference would vote to continue its work irrespective of Germany's attitude, and even possibly make a convention without Germany.

Adding to the peril confronting the conference was the declaration of Foreign Minister Konstantin von Neurath of Germany that whatever reductions are achieved under the British plan, "Germany will be compelled to supplement her armaments and increase her arms."

Baron von Neurath, in the statement in the Journal of the German League of Nations Union, asserted that in his judgment there is no hope for prohibition of air armaments or bombing aircraft.

"That means," he wrote, "that Germany must for her own security develop military and naval aviation."

"Weapons and armaments which others need, Germany needs also." He said the British plan, recently presented by Prime Minister Ramsay MacDonald, failed to grant Germany sufficient recognition as far as arms policy is concerned.

## Russia To Sell Railway

### Announces Intention Of Selling the Chinese Eastern Road

Moscow, Russia.—Russia told the Chinese Nationalist Government that China had no rights in the Chinese Eastern Railway in Manchuria and announced its intention of selling the line to the new state of Manchukuo.

Advising the Nanking regime directly the Peiping-Mukden treaties of 1924, governing the joint operation of the Chinese Eastern by Soviet Russia and China, were considered void, Foreign Commissar Maxim Litvinoff revealed the decision to sell the line to keep peace in the Far East.

## Asks For Arms Concessions

### President Roosevelt Seeking For Conciliatory Attitude From Germany

Washington.—President Roosevelt is seeking to bring Germany to a conciliatory attitude which will make possible definite accomplishments at the Geneva disarmament conference.

The American attitude is that the various nations represented at the Geneva disarmament conference should show a willingness to make reasonable concessions to achieve an agreement and that talk of treaty revisions should await a more opportune time.

### Extend Agreement

Ottawa, Ont.—Without debate the House of Commons passed a bill empowering the governor-in-council to extend indefinitely, by proclamation, the trade agreement in existence between Canada and New Zealand since May 24, 1932. The treaty expires May 24, 1933.

### Activity In Alberta Oil Fields

Calgary, Alberta.—Calgary oil men predicted great activity in Turner Valley oil fields this summer now that the Alberta government had removed drilling restrictions and permitted a greater flow of gas, which will result in a larger naphtha production.

## Condemns H.B. Route

### Senators Urge Curtailment Of Expenditures On Port

Ottawa, Ont.—Senator Patrick Burns of Calgary added his voice to that of Hon. J. P. B. Casgrain, of Montreal in condemning the Hudson Bay Railway. Speaking on Senator Casgrain's motion urging curtailment of government expenditures on the development of the port of Churchill, Senator Burns said the people of the west had talked for 50 years before they got the Hudson Bay Railway, and would have been wise if they had talked for 50 years more.

Senator Burns, a former cattleman and an Alberta pioneer, said he had been to Churchill and was not impressed with its possibilities. The harbour was good but the land along the railway was not fertile. Settlers would be foolish to go there when there was plenty of good land available.

From Winnipeg to the Rockies the western plains were becoming a cattle-feeding country. Senator Burns went on. Shipments of cattle began in February and ended about July. The Hudson Bay route would not be available for this trade, because navigation was late in opening. Thus Churchill could not expect to participate to a great extent in the growing live cattle export to the United Kingdom. There was practically no timber along the railway and there was hope lay in the discovery of important mineral deposits.

Two large mines had already been developed in the area, said Senator Lendrum McMeans of Winnipeg, coming to the defence of the bay route. He criticized Senator Casgrain for his repeated adverse comments and affirmed his faith in the enterprise.

In closing the debate Senator Casgrain urged the government to spend no more money on Churchill. Navigation in Hudson Bay was dangerous, he said; and Churchill harbor was subject to ice blockades.

## May Drop Shipping Bill

### Strong Opposition To Be Offered Would Prolong Session

Ottawa, Ont.—The senate banking and commerce committee adopted word for word, the United States coasting laws. Their effect is identical with the previous drafts.

Under the new amendment transportation of grain at Buffalo is prohibited unless it is carried from the head of the lakes to Buffalo and from Buffalo to Montreal, in a Canadian ship. In the Commons western members of both parties are preparing to offer strong opposition and it is believed that the ministry will drop the measure rather than prolong the session.

## Manitoba Emergency Tax

### City of Winnipeg Refuses To Deduct Two Per Cent. Levy From Exemptees

Winnipeg, Man.—Increasing surprise at the action of city council in refusing to deduct the two per cent existing tax levy from city employees, Premier John Bracken said the tax was constitutional.

At a meeting of city council a motion was passed instructing the city treasurer not to make the deduction from salaries of city employees. It also expressed its intention of carrying the fight to the courts, should that be necessary.

## New British Air Chief

### Sir Edward Ellington Succeeds Late Sir Geoffrey Salmon

London, Eng.—Air Marshal Sir Edward Leonard Ellington has been appointed chief of the air staff in succession to Sir William Geoffrey Salmon, who died April 27.

Since 1931, Sir Edward Ellington had been air member for personnel on the air council and for three years before that was air officer commanding-in-chief of the air defence of Britain.

### Appointed Registrar

Winnipeg, Man.—Sohn nominee for election as registrar of the University of Manitoba and representative of graduates on the board of governors, the Right Rev. S. P. Matheson, for many years chancellor under appointment by the Lieutenant-governor-in-council, was declared duly elected by the registrar.

### Thrown Stone At Prince

Manchester, Eng.—A large stone was thrown at Prince George at Eccles as he was on his way in an automobile to the Manchester airport. The stone was thrown by a boy, and it hit one of the mudguards with a crash. The prince saw it coming and dodged it.

## War In South America

### Trouble Between Paraguay and Bolivia Causes Concern In United States

Washington.—Word that Paraguay had declared war on Bolivia caused deep concern in American official circles, where it was immediately pointed out that Paraguay is a party to the Kellogg-Briand peace pact renouncing war as an instrument of national policy.

Bolivia, on the other hand, is not a party to the famous anti-war treaty, under which most of the nations of the world agreed to settle their disputes by peaceful means.

At the state department, where efforts have long been made under Francis White to settle the Paraguay-Bolivia dispute over the Chaco territory, considerable anxiety was evident, although no immediate statement was forthcoming.

## Thousands Of Books Burned

### Germany Is Purging Her Libraries Of Un-German Influence

Berlin, Germany.—Black-listed books from private as well as public libraries were piled high on "Kultur's altars" throughout Germany for public burning.

Schoolboys enthusiastically rushed final preparations for the huge bonfires for which they were responsible. Nazi student committees of action were working at top speed for more than a week arranging for the great purging of the libraries of "un-German influences."

All books of a Socialistic, Jewish, Pacifist trend were especially marked for destruction.

## SPRING WHEAT ACREAGES CUT IN CANADA AND U.S.

Ottawa, Ont.—Substantial reductions in spring wheat sowings and grain production generally were estimated in crop reports for Canada and United States released at Ottawa and Washington.

A Dominion bureau of statistics report showed a reduction in estimated area to be sown to spring wheat in Canada from 26,646,100 acres in 1932 to 25,171,000 acres this year.

Acreage intentions for oats and mixed grains were slightly above the areas seeded in 1932, with flax, barley and spring wheat lower.

The Washington report indicated that for the first time this century production in all wheat in the United States will be less than estimated domestic needs. The crop reporting board estimated winter wheat production as of May 1 at 337,485,000 bushels, or 63.7 per cent. of normal.

This reduction would necessitate United States drawing on the huge existing surplus of domestic wheat, expected to be about 330,000,000 bushels July 1.

Meantime, at Geneva, representatives of Canada, Australia, United States and Argentina sought the ground work for agreements looking to wheat acreage curtailment and improved prices on world markets.

### ITALIAN MINISTER WELCOMED AT NEW YORK

Although a thick fog kept him waiting outside New York for several hours, Guido Jung, Italian Finance Minister, who arrived to confer with President Roosevelt on international affairs, was consoled for the delay by the warmth of the welcome he received when he arrived at New York. Here is the distinguished visitor acknowledging the welcoming ovation with the traditional Fascist salute.

## KIDNAPPED HEIRESS

## Revised Postage Rate On Newspapers Approved

### Bill Sponsored By Premier Bennett Also Covers Periodicals

Ottawa, Ont.—The new postage rates for newspapers and periodicals carried 40 miles and farther, were approved by the House of Commons in a bill sponsored by Prime Minister R. B. Bennett.

The bill provides that where the advertising space in the publication is 50 per cent. of the total, or more, the postage rate shall be four cents a pound when carried more than 40 miles. The present rate is 1½ cents.

Mr. Bennett said the original proposal had been to increase the rates gradually where the advertising space was less than 50 per cent. but greater than 20 per cent. Representations from the publishers, however, had convinced the government that this would be an undue hardship. It was established, the Prime Minister said, that under existing economic conditions a newspaper did not break even unless its advertising space was approximately 50 per cent. of the whole.

## End Direct Relief

### Direct Relief In Saskatchewan Rural Areas To Cease In Two Months

Regina, Sask.—Direct relief in rural Saskatchewan will come to a close within the next two months.

Within a month, direct relief applicants in Regina may also be cut off about the same time.

A work camp, it is officially stated, will be opened under provincial government control, at Durnford where the military training camp is located, and the Prince Albert National Park will remain open, the two camps giving accommodation to about 800 men.

The Saskatchewan Relief Commission, functioning in rural areas of the province, will close down as a distributing organization by the end of July.

Regina civic officials stated they are expectant that by the end of July the city will either have to bear the entire cost of direct relief or close down altogether.

## Should Use New Port

### Cattle Shipment To England Via Churchill Is Urged

The Pas, Man.—There will be approximately 80,000 head of cattle shipped from Canada to the United Kingdom this year, and it is up to the boards of trade and civic organizations, as well as individuals, to see that a goodly portion of that business goes through the new port of Churchill.

Mr. Strath, who was 50 years old on May 1 last, had been suffering from a nervous ailment for the last month and was intending to leave to visit his brother, Jas. Strath, at Oats, Alberta.

### Met Tragic End

### D. M. Strath, Saskatchewan M.L.A., Is Found Dead

Sceptre, Sask.—His throat cut with a razor, Dan Strath, Liberal member for Haypond constituency in the Saskatchewan legislature, was found dead.

The body was discovered by his wife, slumped over the steps of a cabin on his farm near here.

Mr. Strath, who was 50 years old on May 1 last, had been suffering from a nervous ailment for the last month and was intending to leave to visit his brother, Jas. Strath, at Oats, Alberta.

### Conference Must Not Fail

Toronto, Ont.—Proposing dire results should the economic conference in London next month fail, Sir Walter Layton, C.B.E., editor of The Economist, addressing the Canadian Club, said the difficulties before the conference were tremendous, but that the penalties of failure are so great "none of us can afford to let that conference fail."

## TARIFF TRUCE PLAN APPROVED BY BRITAIN

London, Eng.—The United Kingdom on its own terms has agreed to President Franklin D. Roosevelt's idea for a tariff truce pending the economic conference in June.

Announcement of the accord came, when, a short time before, Prime Minister Ramsay MacDonald stated the government would work for a general reduction in tariff at next month's conference.

On the heretofore unsettled question of the truce, the United Kingdom took the position she had to guard her right to continue negotiations for tariff acts already started and United States apparently saw the force of this argument.

The United Kingdom and United States awaited acceptance for a truce by six other nations represented on the world economic conference organizing committee.

It was felt the absence of replies from France, Germany, Italy, Japan, Belgium and Norway, was nothing to worry about because all of them originally had agreed to a much stronger truce accord than the revised version the United Kingdom finally found acceptable.

Provisional arrangements called for a meeting for the organizing group at which approval of the truce may be formalized and sent to other governments with the recommendation for their prompt acceptance.

Details of the interchange between the United Kingdom and the United States were not completely divulged. Under the plan, all nations would refrain from raising new trade barriers before the end of the world conference, during which new commercial understandings are expected.

## RADIO QUESTION IS SHELFED UNTIL NEXT SESSION

Ottawa, Ont.—The whole set-up of public control of radio broadcasting in Canada will be investigated by a parliamentary committee next session. This was announced in the House of Commons by Premier R. B. Bennett in the midst of a prolonged attack on the personnel and record of the Canadian radio broadcasting commission by Liberals and Laborites.

The commission, established less than a year ago to administer public control of the air, was termed the most unpopular organization in Canada. The claim was it had lost the confidence of the general public. It was criticized for its alliance of the air channels leading to the blanketing of large American stations. Its programs were criticized and, above all, it was described as a "Conservative-owned and Conservative-operated affair."

Sensing the decided change from a year ago when parliament unanimously established public control of the air, the Prime Minister said:

"It is my most earnest desire the radio business should come back to that position where, as one voice, we spoke our determination to maintain this as a national undertaking. I, therefore, suggest . . . we call into being at the next session a committee to which this whole matter will be referred in order that the House once more will speak for the whole nation and not for any party with respect to a matter of this kind."

The Prime Minister made a plea for a "fair chance" for the radio commission. It had been in office only a few months and powerful interests, inside and outside Canada, were determined to destroy it. Coupled with this was his determination to retain public control of the air.

## Still In The Empire

### Free State Citizens Must Remain Subjects Of The King

London, Eng.—Lord Halifax, Minister of War, told the House of Lords that the recent abolition of the oath of allegiance to the British crown by the Irish Free State parliament did not alter the position of the Free State citizens with respect to the king.

Speaking in guarded fashion the minister answered several important questions concerning the Irish Free State raised by Lord Danesford.

Alluding to the large number of Irish residing in England and other parts of the empire, some of whom were drawing unemployment relief or other financial benefits, Lord Halifax pointed out the Anglo-Irish treaty could not be altered unilaterally.

Every citizen of the Free State was born within the King's allegiance and could not get rid of that allegiance without the king's assent.

### More Working In England

### Eighty Thousand More Employed In April Than In March

London, Eng.—Increases in employment continue to cheer the Old Country. Eighty thousand more persons were at work in April than in the previous month, making the total unemployed to 2,697,600.

Since the end of January there has been a fall of 300,000 but there are still 45,453 more unemployed than a year ago. Improvement is at present noticed in building, tailoring, distributing industries, brick and tile-making, dock and road building and hotel services.

### Death Of Herbert J. Hardie

Winnipeg, Man.—Herbert J. Hardie, for more than thirty years manager of Toronto Type Foundry Western Branches, died at his home in Winnipeg on Saturday, May 6th. Death resulted from a heart attack. Funeral services were held at the home on Tuesday afternoon, and interment took place at St. John's cemetery. Known to the newspaper and printing fraternity throughout Western Canada, a wide circle of friends mourned his passing.

### Sawmill Workers Busy

Rimouski, Que.—Sawmill sirens summoned 225 men back to work in the Price mill here, after a long winter lay-off, to begin sawing the winter's cut. The mill at Price, Matane and Rimouski expect to export 25,000,000 feet of lumber to the British market this summer.

## Local and General Items

Carl Anderson was recently discharged from the Edson hospital.

Clean-up days were well observed in Blairmore. It was about the only busy day this year.

Blairmore's first league football game was lost to Coleman 5-1 on Saturday evening.

Mr. and Mrs. Ed. Elliott were down from Chapman Camp last week end, on a visit to local friends.

If your face needs resetting, come to the United church auditorium on May the 26th, where a good laugh will do it.

Ike Jasman, eight years old, was burned to death in a fire at Macleod on Thursday night last that destroyed \$35,000 worth of property.

Alfred George Frederick Riley, brother of Mrs. Frank Holmes, of Beaver Mines, died in Calgary on Tuesday.

An interesting article from the pen of W. A. Fraser on the Franklin slide of thirty years ago appears in a recent issue of the Pincher Creek Echo.

There is something wrong with Harvey Murphy's head, or he would realize by now that we are not being worried by him, and that his mighty influence is not affecting us one iota.

Subscribers are expressing dissatisfaction at not receiving the Calgary Albertan through the mails. Lately, that paper decided on distribution through the drug store.

A newspaper item read that Harvey Murphy proposed doing honor to Queen Victoria on May the 24th in Blairmore—and a little lad remarked upon reading same: "Yes, if he can rustle a red flag."

Mrs. W. Bond is up from Lethbridge to spend the week with her husband. Accompanied by J. R. McLeod, they motored to Fernie and Bow River and visited friends on Saturday and Sunday.

Galt Miners and Supinas played to a 1-1 draw in an exciting football game at Lethbridge on Tuesday. The Miners have been booked to play at Hillcrest on the afternoon of May the 24th, Wednesday next.

Joseph Clerk, of Sydney, N.S., writes The Enterprise, asking what opportunities are here for an official position with the municipality. He must have understood that the town was importuning all officials.

We have our Victoria Day, Confederation Day, Labor Day, and other national and international holidays, but none of them has the appeal or arouses the human feelings as does Mothers' Day. It has a sadness and a wistfulness all its own, coupled with cherished memories of childhood, home, and a mother's love.

The big public demonstration scheduled for Blairmore on Sunday afternoon last, to be addressed at the bandstand by Harvey Murphy, did not materialize. Police were on the job and stopped it. The reds, however, heard Murphy at the Orpheum theatre, where he used his voice against everything worth while in Blairmore that he could think of, but failed to show that he intended accomplishing any good.

The annual mothers' and daughters' banquet at the United church auditorium on Friday night last was a well attended affair. The banquet was sponsored by the girls of the C.G.I.T. Supper was served at 6 p.m. by the Ladies Aid. During the evening each mother received a pink carnation. The toast to the mothers was ably proposed by Miss Marion McDonald, and responded to on behalf of the mothers by Mrs. W. Oliver. A number of games and community singing followed. The following group leaders were present: Misses Madeline Chardon and Gladys Morgan, and Mrs. A. E. Larke.

Several weeks ago we announced that a number of local business men had given orders for stationery to a representative of a Toronto printing house. Some of the goods arrived this week. Now the joke: Practically all those local business men are in debt locally, and the goods from Toronto have not saved them one cent.

Besides, if ordered locally, they could have been delivered in two days—the time it takes for the freight train to travel from Toronto to Sudbury in Ontario, and the same size order here would not cost a darn cent more.
